

# THE PEAK

THE FINER THINGS IN LIFE

# PROFILE

THE PEAK HAS CHRONICLED some of the region's greatest success stories ever since it was launched in Singapore in 1984. It continued its quest with the launch of The Peak Malaysia in 1989, reflecting the aspirations of today's achievers and corporate leaders.

The Peak is an exclusive publication created for a selected audience - upmarket individuals whose elegant lifestyles are restricted only by taste. We inspire with stories of privilege and excellence. The Peak seeks to challenge with insightful articles and presents different perspectives on current issues. These are delivered with an authoritative and spirited style to satisfy the expectations of our discerning readers.

- Maximum Ink Density: 300 TVC in total.
- All images in CMYK format under fogra 39L colour profile (RGB Format not accepted).
- All final material/files are to be sent through the advertisement delivery system together with a DIGITAL PROOF using Biz of RE Sdn Bhd's ICC Colour reference profile (ISO Fogra 39L) for printing reference. The system will check and verify your files based on the print requirement and specification, before being delivered to Biz of RE Sdn Bhd.
- Supplied proofs must have the Biz of RE's GMG colour control bar and Ugra/Fogra the MediaWedge V3 Colour bar with an attached pass/fail sticker indicating compliancy.
- By choosing not to supply a DIGITAL PROOF using Biz of RE Sdn Bhd's ICC Colour reference profile ( Fogra 39L) with this ad submission, the colour reproduction of the ad will be based on industry standard best practices to achieve colour as accurate as possible from the supplied digital file.
- Biz of RE Sdn Bhd will only take responsibility for accurate colour reproduction if the digital proof is provided using the above standards.
- Biz of RE Sdn Bhd does not repair digital files. Ads containing errors will be returned to advertisers.

After this time, digital files need to be resubmitted via the advertisement delivery system (Digital Transmission).

Copy instructions allow us to easily identify your advertisement. It is particularly important to enter the publication/run date, which is the insertion month of the advertisement.

Biz of RE Sdn Bhd requires a minimum of 3mm bleed on the advertisement.

Please ensure that all elements that you wish to print are kept within the text area as indicated in the specifications within digital transmission application.

For TEXT running across a Double Page Spread (DPS), the TEXT must be 10mm away from the gutter on both sides to avoid for the TEXT to be bind into the spine.

Note: Perfect alignment of type or design across the gutter of two facing pages cannot be guaranteed.

Biz of RE will not take responsibility of any text or visual be cropped/ bind into the gutter, if the above measurements/instructions are not adhered.

The Material deadline is 5 weeks before publication date, if the material is not received within the deadline, the publisher reserves the right to repeat any previous advertisement of the same size or to fill the space at its discretion.

Cancellation deadline is 6 weeks before publication date. All specified positions and creative buys are non-cancellable.

If you wish to send a digital ad and/or supply a digital proof but do not have the advertisement delivery system or suitable proofing system installed, please contact our production team/sales team for the list of advertisement delivery system providers at 03-7494 4884.

### DIGITAL TRANSMISSION

Biz of RE Sdn Bhd prefers files to be delivered through the Quickcut Network operated by Asia On Time. Quickcut, checks the integrity of files before they are sent to Biz of RE so that your files will print correctly. Biz of RE cannot accept responsibility for or fix files submitted via CD, e-mail or other suppliers.

The Quickcut process delivers problem-free, press-ready files according to publishers' specifications, and has proven to be the most efficient method of receiving and tracking digital ads at Biz of RE Sdn Bhd. Advantages of the Quickcut service are accuracy of file structure and page size, reliability and speed, and the provision of an audit trail. The Quickcut software checks digital files for errors before they are transmitted electronically to Biz of RE Sdn Bhd, ensuring advertisers do not submit files that contain errors and will therefore not print correctly.
